

# Print slides in 2007

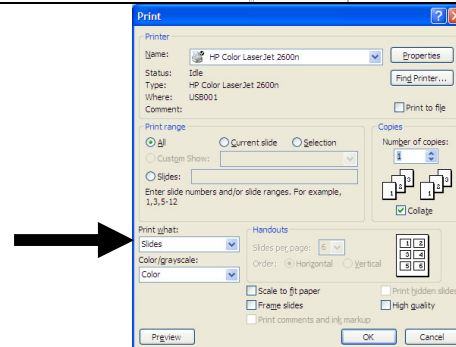

Click on the **Office Button**.

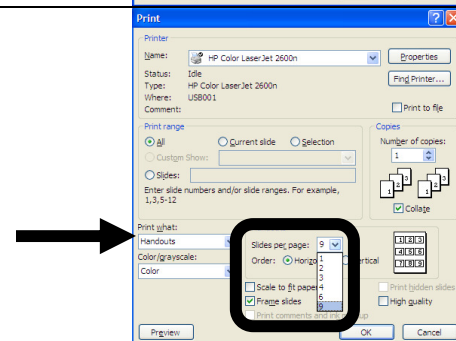

Click on **Print**.

The default will print each slide on a separate sheet of paper.  
If this is what you want, click **OK**.

If you want to conserve paper, choose **Handouts**.  
You can print out 1, or 2, or 3, or 4, or 6, or 9 slides on each sheet of paper.  
Make your choice and click **OK**.

You could also choose Outline View to print a listing of the text on all your slides.  
Choose **Outline View** and click **OK**.

When your slide show is running, use the outline to locate the number of the slide you want to go to. Type it. Hit **Enter** and you're there!
